ABSTRACT

The tables in this report were prepared from the annual staff report submitted by the 24 Maryland local education agencies (LEAs) to the Maryland State Department of Education. Each November, LEAs submit a report containing information about each staff member actively employed as of October 15 of that year. All positions, with the exception of temporary and hourly personnel, and contractual personnel with less than a school-year contract are included. The identification as instructional or noninstructional is determined by a combination of budget categories and position type classification. Instructional personnel are teachers, therapists, guidance counselors, school psychologists, principals, vice principals, school librarians, and teacher aides. Thirteen tables present information on all staff and on staff in regular and special education, administration, and other maintenance, transportation, food service, and community service positions. INTRODUCTION

The following tables were prepared from the annual staff report submitted by the 24 Maryland local education agencies (LEAs) to the Maryland State Department of Education (MSDE). Each November, LEAs submit a report containing information about each staff member actively employed as of October 15 of the year. All positions, with the exception of temporary and hourly personnel, and contractual personnel with less than a school-year contract, are to be included.

The identification as instructional or noninstructional is determined by a combination of budget categories and position type classifications. Instructional personnel are defined as teachers, therapists, guidance counselors, school psychologists, principals, vice principals, school librarians and teacher aides. In Maryland, there are currently two instructional categories, Instruction and Special Education. Within these categories are both instructional and noninstructional position types. Noninstructional positions in instruction consist of all staff who are not instructional, e.g., business personnel in the Office of the Principal.

The presentation on the enclosed pages is somewhat different than in previous years. Some of the tables have been expanded to provide more information for users than has been available in the past. Note that Table 6 includes only staff who have historically been identified as instructional personnel on MSDE's publications. Tables 7 and 8 show both instructional and noninstructional staff included in these two instruction categories.
